

Community Health Centers provide innovative health service delivery to more than 25 million patients! Join us in celebrating National Health Center Week 2017, August 13-19. This year's theme is *Celebrating America's Health Centers: The Key to Healthier Communities*. We encourage health centers to share their health center week events and happenings on social media leading up to, during and after the big week. Please use the official National Health Center Week hashtag -- **#NHCW17** and the health center value hashtag --**#valueCHCs**-- in your posts!
